## Hawthorn LECTURE

2017-2018

### When Nature is not Only Nature?

Stories from the  
Anthropo-not-seen

Marisol de la Cadena

Professor **Sabina Magliocco** participated in the symposium “Understanding Extraordinary Experiences and Events,” organized by Dr. Jeffrey Kripal (Rice University) and Dr. Tanya Luhrmann (Stanford University) at the Esalen Institute from February 18 - 23, 2018. Sponsored by the Esalen Institute's Center for Theory and Research, this event brought together professional anthropologists and scholars of religion committed to tracking, describing, and interpreting extreme religious experiences with contemporary experiencers in an atmosphere of mutual trust, open conversation, and exploration. Two intellectual projects were at the heart of the symposium: Dr. Luhrmann's project on contemporary phenomenology of the mind, and Dr. Kripal's call for a “new comparativism” based on ethnography and phenomenology of extraordinary experiences in the contemporary world.

Professor **Bill McKellin** is a collaborator in a newly funded Genome Canada project, PEGASUS-2 - Personalized Genomics for prenatal Abnormalities Screening Using maternal blood : Towards First Tier Screening and Beyond. Principal Investigators, François Rousseau (Laval), and Sylvie Langlois (UBC) \$12,241,625 over 4 years.

The **Anthropology Students' Association** is making UBC Anthropology sweaters and tote bags that will be available starting in March. Sweaters are available in black, white and grey, and the tote bags are black. Keep your eyes out for posters and emails detailing cost, availability, and the exact date they will be available!
