

# **ANTH 495C MULTISPECIES ETHNOGRAPHY**

**2023 Winter Term 1: WED, 2–5 PM**

**Instructor: Dr. Shaylih Muehlmann**

**This course will explore the complex relationships between humans and other life forms. It will focus on how human existence is intertwined with other species in shared environments. The course will discuss topics such as how our relationship with other species affects our health, economy, food, and ultimately our understanding of ourselves as humans.**
